Johnny Hines IN "The BROWN DERBY"

He Takes the Lid off Laughter!

JUMP IN!

There's plenty of room for the quickest time ever made around the joy circuit. The Brown Derby isn't a horse race, but it's twice as fast.

Coming Next Week

Wednesday, October 6th

"The American Venus"

Friday and Saturday, October 8 and 9.

"The Great Divide"

Local and General

Mr. and Mrs. John Mueller of Sturgeon Bay Wisconsin are the guests of Mr. Miller's brother, Otto Mueller. They made the trip by car and found the roads exceptionally rough.

One of the local threshers, Bud Roberts, threshed a load of wheat bundles last week to discern what damage had been done. The grain graded No. 3 tough. This was before the grain was thoroughly dried so better results can be expected.

The horses that run at large are committing considerable damage. On Saturday they destroyed as much property as possible around the Nelson home and ended by tearing down the radio pole and equipment.

Following the practice of recent years the Canadian Pacific Railway Company is again awarding a prize of one hundred dollars (\$100.00) to the Canadian scoring the highest number of points in hard wheat at the international hay and grain show to be held in Chicago the first week in December. In past years, with but one or two exceptions, the winner of this prize has also proved to be the winner of the world's championship in wheat.

Miss Lillian Watkins, an October bride-elect, was the guest of honor at a charmingly arranged handkerchief shower held September 24, when Mrs. M. Moffatt was hostess. Little Miss Mavis Moffatt presented the handkerchiefs in a gayly covered basket. A delicious lunch was served by the hostess assisted by Mrs. B. Gill. Those present were: Miss L. Watkins, Miss Chase, Miss Bowman, Mr. O. Harper, Miss Tory, Miss K. Watkiss, Mrs. L. Thompson, Miss Williamson, Miss Philpott, Miss Stephenson, Mrs. B. Gill and Miss Woodhull.

CHURCH BULLETIN SUNDAY, OCT. 3

11 a.m.—Sunday School.
3 p.m.—Service at Blussen.
7:30 p.m.—Evening service at Champion. Subject: "Return of the Day."

Services were held last (Saturday) afternoon at four o'clock, the Rev. T. T. Faichney officiating, after which the remains were laid to rest in the city cemetery.—Martin Bros, directors of funeral services.—Lethbridge Herald.

Lyman Jopling returned from Milo on Wednesday.

Colonel MacGregor stopped at the School for a few minutes on Wednesday on his way to the Carmangay School Fair.

While pouring gas into the carburetor of his Rumely Oil Pull C. E. Anderson narrowly escaped an accident. The engine back-fired, and ignited the gas in the can held in his hand. Mr. Anderson dropped the can and luckily for him no explosion took place.

The St. Louis Cardinals and New York Yankees will oppose each other in the first World's Series Game on Saturday.

The Sunday School Rally which took place on Sunday was a decided success. A splendid well planned program was carried out which included a pageant, given by the members of the Sunday school.

Mrs. Hobbs, beloved mother of Mrs. Howard Smith passed away at her home in Ontario, Wisconsin on Sunday. Mrs. Hobbs had been ill for some time past; she was in her seventy-eighth year.

COMMUNICATION

Below is an extract from a letter received by the editor during the week from Wm. Fry Spokane.

"We are having some phony weather here as well as up homeward to day it is snowing. I see by the papers Alberta is getting the worst done of ever had. I trust however that things will eventually turn out straight. We have the children started in high school and so far things are running along fine."

OBITUARY

Lobban—Passed away on Friday Sept. 24th, last, in his son of Mr. and Mrs. J. H. Lobban of Champion. Funeral services were held last (Saturday) afternoon at four o'clock, the Rev. T. T. Faichney officiating, after which the remains were laid to rest in the city cemetery.—Martin Bros, directors of funeral services.—Lethbridge Herald.

THURSDAY, SEPT. 30, 1920

A Record Breaking Trip From Coast to Coast

News has been received here that the Standard Ford roadster driven by Cannon Ball Baker crossed from New York to Los Angeles in five days two hours and thirteen minutes, thus breaking three transcontinental records in a single sweep. The previous record of a high gear run was eleven days five hours and forty five minutes made by a six cylinder car. Baker's record is two days thirteen hours and forty five minutes better than the fastest time ever made by any kind of car with one man driving the entire distance from coast to coast. The record is also sixteen hours faster than the best time ever made across the continent on a motor cycle.

SIGNED UP IN POOL

The largest acreage covered by a single contract which has been signed up in the Alberta Wheat Pool since its formation in 1923, was brought in during the past week when the immense wheat lands of George Lane and Company, Ltd., were signed up. The lands, which were put out on behalf of the company by Hon. A. J. McLean, manager. The contract includes the extensive acreage of the company at Namao, and also the very large areas in the districts of Champion, and High River. That the Wheat Pool is now regarded by the large wheat growers as the most satisfactory channel through which their wheat can be marketed, is demonstrated in a striking manner by the signing up of this colossal contract.

Even more remarkable are the substantial increases in both membership and acreage, the period since August 1st constituting a record for a year. In that period approximately 320 new members have been signed up in the Pool—U.F.A. Paper.

HELPS TO MAKE MONEY

Whatever money you make at home helps to make your town and community better in every way. Economically at least every sale makes a profit, which profit becomes available to invest in your home, through the bank and insurance, or through banking channels for investment. The banks may lend a portion to some one in business to help develop his business or make some improvement, or they may lend it to some client, who in turn will help someone to build a new home or improve the old, or buy a new car, or help to light the home, or make the home more modern or beautify their place of residence, thereby adding to the general appearance of your town. When you send your money away you are simply helping to build up the town in which you are not interested, and neither you nor any of your friends are getting a cent back at any time, unless they benefit. Your money is a real builder, either for your own town or the other fellow's town. Take this choice, and don't forget that this same theory works just the same for the merchant, business or professional man, who ships a few dollars away because he thinks he is getting a cent back, and in the matter of fact, he is simply helping to build up another competitor of the worst type, the unscrupulous and unknown competitor. Think it over Mr. Man when you are tempted to save a few nickels.

There appears to be a rejoicing among the centists at home. Hon. Arthur Meighen in his postage stamp speech at the Ontario Fair, he devoted his splendid talents to public affairs all his life and all the thanks he receives is harsh criticism. We are a strange people.

Women's Institute Hold Conference

The Little Bow Constituency Conference held on September 27th in Champion was undoubtedly a great success. Mrs. F. C. Aleck, Constituency Convenor in the chair, had planned her program so successfully that when the reports of the branches and girls clubs (twelve Women Institutes, and five Girls Clubs) had been given, ample time for discussion, which seems the most appreciated item at any conference. The skillful way in which Miss Macraeum, director of Home Bureau Service, answered the many questions and explained problems was similarly appreciated and her address was thoroughly enjoyed. Mrs. Lynch, Stanton, District Director, gave a very interesting and instructive address on "Home and Contentment," and also answered several questions. Mrs. Anita Barlow, District Director of the Girls' Clubs gave a report of the Girl's Club Camp at Jasper Park. The election of officers for 1920 and 1921 were as follows:

Constituency Convenor, Mrs. F. C. Aleck by acclamation, this being her fifth year in this office.

The constituency chairman of the standing committees—Child Welfare and Public Health, Mrs. J. Marshall, Valeum; Education and Better Schools, Mrs. John Cain, Champion; Legislation, Mrs. D. H. Galbraith, Valeum; Immigration, Mrs. Booze, Kirkleady; Household Economics, Mrs. T. A. Martin, Valeum; Agriculture, Mrs. W. H. Miller, Carmangay; Canadianization, Mrs. J. Kelley, Brant.

The highest praise must be given to the refreshment committee convenor Mrs. J. N. Beaupre, with Mrs. U. G. Anderson, Mrs. J. T. Dan Harper, and Mrs. Dan Harper as the most efficient helpers. The hot chicken soup served with other dishes for dinner, and the cold salads and cake served for tea will not be forgotten for sometime. The refreshment hall was beautifully decorated in the W. L. colors, pink and white and the United Church, where the meeting was held, in the national colors. Vocal solos were rendered by Mrs. G. McLean and Mr. G. Campbell, the secretarial duties protein by Mrs. Fred Wise.

There were approximately one hundred in attendance, as many being unable to be present owing to the state of the roads. An invitation from Carmangay to hold the conference there next year was accepted by a great majority.

HONEST MEN

The following article appeared in the Canadian Commercialist.

In summing up the wants of this Canada of ours you will no doubt agree with us that the greatest want of this age is man—men who are not for sale. Men who are honest, sound from center to circumference, and true to the heart's core. Men who will condemn wrong in friend or foe, and will stand by their principles and good fellowship.

billiards
promotes
good fellowship

A FEELING of cordial

good fellowship always pervades every well conducted billiard room, and every billiard table in a properly managed recreation center fosters a sense of responsibility and good fellowship.

Give billiards a trial on our billiard tables. Meet more men, make more friends, and have opportunity. You will be impressed with the excellence of our billiard tables. You will be provided for the enjoyment of the game, and you will also feel more at home when you sense the atmosphere of friendliness and refinement that always is evident in this recreation center.

U.G. ANDERSON

Proprietor.

GOOD FARM HOMES

Governments were a long time recognizing the fact that the farmer's wife was the most important institution about the farm, according to an authority, who spoke in the Alberta section of the Women's Institute wing, Women's Building, Canadian National Exhibition. "By the consideration of the wife's character and attitude you can measure the success of your agriculture," declared the speaker, "but you will never make agriculture what it should be until you have farm homes where boys and girls will be glad to return."

GUNDER NERISON

"A conspicuous success," was how Lord Clarendon regarded the 3,000 family settlement scheme which has provided Canada with a flow of immigrants for the past two seasons. Lord Clarendon was in Montreal enroute to the Maritime provinces. He said he would return home in favor of a renewal of this form of settlement, which was to his mind the best kind of colonization.

Tough joke on an Oakland, California, undertaker the other day, when a man supposed to have been in his grave for six months came in and demanded his pay. The undertaker refused, paid an eastern relative. An American paper frankly acknowledges that the truth lies somewhere between what Europe thinks of the U.S. and what they think of themselves.

The Old World doesn't seem to be old enough to know better. Mr. Meighen is having his son educated at a French-Canadian college. He says he will be in the U.S. and there would be if Mr. Mackenzie King were to send a son of his to Laval, says the Godech Signal. We rise to remark that surely would be in view of the fact that Mackenzie King is a bachelor.

Are We Downhearted? **NO!**

CHAPTER XV.—Continued

When he was satisfied of his observations, he had stopped having a look at himself in the mirror, and had moved closer on the cushioned sofa, until only the knee, which was crossed and pointed his way, halted his voice, when he spoke, was little above a murmur.

"Please," he pleaded, "don't let me pretend. I'm much, much older, to really. You do it spontaneously, but you couldn't be wholly successful. When a woman has had so much experience, old enough, you know, so that she knows how to be a good mother, she doesn't have the time or the money for her, then she has to pretend that she hasn't yet learned that everything is what it is and not what's in copy books. If she does that, she's a good mother, so we know she's about right. But, if she's a lovely girl makes believe she doesn't understand everything and everybody we know she's just mocking. Because she thinks she does, anyway. Don't you see?"

Joanna regarded him elaborately, frankly initiating his own examination of her a moment before. "Yes," she said, with her inevitable smile pluming up on him. "Then you do it, and you're a teacher. I suppose you're a Sodoma, in some good references or things like that?" His ready laughter bubbled through his mask of seriousness.

"Only experience, my lovely Jo-

anna," he said, finding her hand among his, and holding it, and taking possession of it with both his hands. "I'm not going to be your guide, and yours will be your ambition." When he had finished he gave her lips, fragile fingers a continual pressure, and looked into her eyes, which were looking at him with a consider in him. She seemed to be uninterested about her hand. She even snored her knee, a little, to help him hold down the space between them. She said, then:

"You're a boy, finding her hand among his, and holding it, and taking possession of it with both his hands. "I'm not going to be your guide, and yours will be your ambition." When he had finished he gave her lips, fragile fingers a continual pressure, and looked into her eyes, which were looking at him with a consider in him. She seemed to be uninterested about her hand. She even snored her knee, a little, to help him hold down the space between them. She said, then:

"You will not, Yvonne, correct him, or tell him what he's done wrong, or what you made it Joanna's, yet?"

"I'm not, yet. I have, yet. Well, then, Joanna has a day mapped out on her, and she's got to be hit, I would be so weak."

Then he read in the paper of a man who had been shot, and got better after taking the Vegetable Compound, so he went and got it for me.

"I was just like a new woman and I have had splendid health ever since. When I was young bearing down pains I always take it; sometimes a half bottle of what I have, and I have a hand carried me to bed, I would be so weak."

Then he read in the paper of a man who had been shot, and got better after taking the Vegetable Compound, so he went and got it for me.

WORLD HAPPENINGS
BRIEFLY TOLD

Permission is to be granted American territory during the forthcoming visit to South America.

A decree issued by the minister of agriculture, Chali, prohibits the importation of potatoes from any country, because of warts disease.

The British navy is developing an "aerial dreadnaught," which will be able to fly with the speed of the Work on the new war machines is being conducted secretly.

The Canton government continues lifting the anti-British boycott which has demonstrated supply to date. British concerns now more than a year.

A private firm is negotiating with the British admiralty for the purchase near Rosyth dockyard of a site on which to erect a glass factory where 1,000 men would be employed.

The French government has paid 5,000,000 pounds (about \$10,000,000). This first payment on the war debt. The Italian government also paid \$10,000,000 to the British government.

The South African Education Department is considering the advisability of establishing colonies for the study of Esperanto in the state schools. Esperanto is the proposed international language.

Viscount Willingdon, named to succeed Lord Blyth as postmaster-general of Canada, has made a Knight of the Order of Saint Michael and Saint George by order of His Majesty King George.

The engagement of Crown Prince Leopold of the old Belgian royal house to a widow, Mrs. G. J. G. de la Motte, 26, third daughter of the Duke of Vlaanderen, and niece of King Gustav, was officially announced.

"The outlook for improvement in the industrial field is much brighter than at any time since 1924," declared the report of the executive committee of the Dominion Trades and Labor Congress, meeting at Montreal.

Steps will be taken by the National Association of Canadian Clubs to ask the Dominion Government to appoint a committee, representative of the clubs, to organize the celebration of the diamond jubilee of Confederation.

Canadian clubs are making, to the extent of many millions of dollars in Florida real estate, much of it in the neighborhood devastated by the storm, and it is feared that a heavy portion of the property lost will fall into the hands of the Dominions.

Strange Method For Promoting Longevity

Biologist Says Decapitated Butterflies Live Longer Than Others

The strange method ever devised for prolonging the life of insects has just been presented to the British Academy of Sciences by Father Camille, a missionary in Madagascar, who, in addition to his missionary activities, has for many years pursued studies which have added greatly to his reputation as a scientist.

Firstly, his conclusion is that decapitated butterflies live longer than their fellows, who are left as nature made them.

Some fifteen years ago M. Edmund Perrier reported to the Academy of Sciences his discovery that, if certain enteropliars were decapitated in such a way as to cause the minimum loss of blood, they would live longer than the total course of their development, and, after passing through the chrysalis stage, emerge as perfectly healthy but headless butterflies. He found that while the decapitated butterflies lived longer than the others.

Entomologists who have studied the phenomenon have come to the conclusion that this is simply because they lead a much less active life. A perfect butterfly quickly spends its time in flight, while the headless butterflies, leading much more placid lives, eat out their vital forces at a slower rate, and thus attain a comparatively ripe old age.

Canadian Flour for Brazil

With a view to developing an even greater market in Brazil for Canadian milled flour, an experimental full cargo left Montreal recently destined to Santos, the port of São Paulo, Brazil. The cargo, which weighed 1,000 tons, amounting to 5,000 tons taken to Brazil direct from a Canadian port. Heretofore much of the Canadian flour going to Brazil has been taken by rail to New York and there loaded on steamers sailing south.

A horse race at the Fair may be well enough, but trying to beat the iron Ross to the crossing is hardly a "sport"—unless the cornerer enjoys it.

W. N. U. 1644

Assisted Colonization
By Chas. W. Peterson

In a vast country like Canada, containing within its boundaries so great a wealth of natural resources, there should be only two major problems in public policy, first, to provide for the gradual development of these resources, and secondly, to attract the working population, and, secondly, to direct the quest for and distribution of such new population as to insure, as far as possible, that their economic development will be in accordance with the needs of the country. The expectations as will ensure a rapidly balanced national production. Canada's present primary need is an increased rural producing and consuming population. With this need supplied, our agricultural and industrial plants would be working overtime.

It is not difficult to comprehend that the days of easy accomplishment in the field of immigration are over. Our free, high quality lands are no longer available for settlement in Europe, and the people in Canada are no longer available for settlement on our lands in any large numbers. The social revolution in the Old European civilizations—it has been a long time since the last of the "milk dog" vastly changed than it ever was in so far as elimination of the fear of the consequences of slackness and unemployment is concerned, seems to have been overcome. Canada must wake up to the uncomfortable fact that to obtain results even anywhere near approaching those of former days—and such must be considered absolutely inadequate in meeting our present迫切 political requirements—it will be necessary to pursue policies vastly different to those of the past and present.

We must, more or less, forget the days of the "immigration" and learn the significance of the word "colonization." Nothing short of a comprehensive plan involving the actual placing of people on the land, followed by an intelligent, friendly understanding of the needs of the people, and the creation of a society of atomized settlement will bear fruitful results. It will be absolutely essential to provide financial assistance to worthy, selected families to enable them to make the move. Canada must be prepared to meet the economic terms of tens of millions of dollars if we are to get anywhere with an effective plan of agricultural development.

Intelligently handled no investment in the west will bring capital return to the producer, a large capital to be utilized as direct loans to experienced farmers settling on our vacant spaces, at a very low rate of interest with a repayment period of from three to five years. The capital to be used to start a revenue farm.

The output of French factories has nearly doubled in the last four years, and the figure being 14,500 tons in 1925 as against 7,500 tons in

Famous Singer To Visit West

MADAME AMELITA GALLI-CURCI
The greatest singer of the age, who will sing in the Stadium at Regina, Thursday, October 11th. This will be the only concert in Saskatchewan.

1927
A Smart Frock for Field or School
Or Play

Shirtrims always form an attractive trimming on frocks for the little miss from four to twelve years of age.

It is a simple trimming, a lace collar and a yoke extending in a panel down the front. The long full sleeves have a lace collar and a lace yoke, and are marked for a shorter length, No. 1277 is in sizes 4, 6, 8, 10 and 12 inch gingham, or 1½ yards batiste plaid flannel or Jersey cloth, 20 cents each.

The Fashion Book are advance styles for the home dressmaker, and the wearments dependable for taste, simplicity and economy will find her desire fulfilled.

Price of the book, 50 cents. Price of the book, 2 cents the copy.

How To Order Patterns

Address—Winnipeg Newspaper Union,
115 McDermott Ave., Winnipeg

Pattern No. Size

Name

Town

United States five-cent piece or
nickel, 75 per cent copper.

Half of the best violin bows come
from white horses.

The woman's missing sense of humor has saved many a man from making a fool of himself.

The funniest play because the warrors.

PRAIRIE BOUND

This happy party of Scotch girls has just landed in Canada from the Anson Donaldson Line. Leitch. They travelled under the auspices of the Catholic Women's League, and are proceeding to farms in Western Canada, chiefly Saskatchewan. This is indicative of the steady movement of British youth and womanhood to Canada.

A new method of freezing fish was demonstrated with a new process for salting fish which was carried out recently here by members of the Atlantic Experimental Station for Fisheries. Fillets and fish were frozen in strong brine in 60 minutes, compared with 24 hours required by the usual process of air-freezing. It is claimed that the freezing of fish in the shorter time will result in better flavor as well as more rapid transportation to market.

A Two-cent Crook

Woman's frock by envelope! Recently a London girl, wishing to send a frock to a friend, folded it neatly, placed it in a large office envelope and mailed it for the ordinary letter postage. The dress weighed two ounces.

Every circumstance you meet contains something for you.

Made Fastest Flight

French Air Fleet Flies Nearly 300 Miles in Four Hours

Adjutant Bonnet, the French aviator pilot, has moved faster than any other man in the world. In a Bernard monoplane, with a Hispano Suis engine, he has flown at 278.4 miles an hour.

Speed records, for many reasons, are made close to the ground (writes Major Oliver Stewart). A level course is marked out with buoys containing observers and electrical timing apparatus at the ends. The aeroplane, sailing close to the ground above the grass, approaches the speed course from four or five miles away, and is going "tail-out" about a mile from the finish.

So close to the ground the impression of speed, even at 150 miles an hour, is emphatic. At the speed Adjutant Bonnet has attained the wind would be curling around the wind-pump, the propeller would be in the pilot's helmet with the force of a fire-engine.

The full-throttle run of a 900-hp. engine at arm's length in front of him would be drowned by the howling caused by the machine drifting through the air.

If he raised a hand high above the edge of the cockpit, his arm would be broken by the ate blast. If he put his head round the side of the wind-screen he would be suffocated.

France Produces Own Dye Stuffs

Production of This Material Nearly Doubled During Past Five Years

The production of dye stuffs in France has steadily increased since 1920, and in 1925 was reported by the Bankers Trust Company of New York, from its French information service, the annual report of the Union for promoting this industry (Union des Producteurs des Colorants), that the production of dyes in France (des matières colorantes en France) shows that imports of dye stuffs, which in 1920 totalled 1,797 tons and in 1924, 2,444 tons, aggregated 1,451 tons in 1925. The main dye stuffs produced in France are: Indigo, which is the most important, followed by madder, woad, saffron, and indigo.

Its popularity among his compatriots is attested to by the formal addresses of confidence and gratitude which have been presented to him by the parties who have been instrumental in the organization of the railroad.

He also assisted to organize the western delegation to the Eucharistic Congress at Chicago last June, and his services were highly appreciated.

THREE COUNTRIES SHOULD CONTROL WORLD'S WHEAT

Vancouver, B.C.—The Vancouver Province publishes the following cable from Sydney, Australia.

"Canada, Australia and the Argentine, the three great wheat-producing countries, should control the world's wheat," declared Henry W. Wood, president of the Alberta Cooperative Wheat Pool, during the course of an address at a banquet where he interests here.

"The three countries," said Mr. Wood, "produced approximately 500,000,000 bushels of the world's exportable wheat surplus, which was about 700,000,000."

"If they set out to control the markets of the world, by a campaign of organized, systematic co-operation, these will be none that may," declared Mr. Wood.

Labor Men Denounce Senate

Should Be Reformed is Opinion of Delegates to Congress

Montreal.—The Canadian Labor delegation to the Senate of the Canadian Senate as the body which overstands in the way of the realization of Labor's legislative hopes was a feature of a session of the forty-second annual meeting of the Canadian Trade Unions and Labor Congress being held here. The incoming executive was instructed to do all in its power to effect toward abolition of the Senate or its reform.

Delegates pointed out it would be difficult thing to abolish the Senate entirely, but all felt reforms must be brought about. Miss Mary McNab, Toronto, organizer of the textile workers, described the Senate as "a nest of rogues, a remnant of the days of our savagery in Canada, aged in mind and in body."

Prize To Wheat Winner

C. P. R. Again Offering Prize of \$100 for Highest Points at Chicago Show

Winnipeg.—Following the practice of recent years the Canadian Pacific Railway Company is again awarding a prize of \$100 to the exhibitor securing the largest number of points in wheat at the International Wheat and Grain show to be held in Chicago this first week in December.

In past years, with but one or two exceptions, the winner of this prize has also proved to be the winner of the world's championship in wheat.

Dempsey Meets His Match

Gene Tunney Defeats Former Champion in Savage Fight

Local and General

J. F. Harper spent the week end in Calgary.

Geo. Stoddard was a Calgary visitor over the week end.

During the week L. W. Bowden has repaired the roof on Mrs T. Gill's residence.

Nels Rummel returned this week from Sunburst Montana where he has been looking over the oil fields.

Mr. and Mrs. Nelson left last Friday for Calgary, where Mrs. Nelson will receive medical treatment.

James Asmussen who has been employed on an elevator returned to Champion, this week.

Lost—Ladies fur, either in Campbell's Hall or the Union church. Finders please return to Chronicle office.

Carl Johnson returned from Calgary on Monday and will spend a few days in the Champion district before returning to his home there.

A Baker, local agent for the Imperial Oil Co., has recently purchased a new Ford truck from U. M. Granlin.

The first sleigh of the season made its appearance on Sunday.

This along with the snow makes one think of Christmas.

V. S. McClure received word on Monday of the death of his nephew in the recent storms in Florida.

It is rumored that W. F. Bozarth was favoring the wrong side of the Dempsey-Tunney fight. Better luck next time Bozo.

We are glad to report that Mr. Ryan who has been ill for the past two weeks has recovered sufficiently to be around again.

While walking across one of the local street crossings Mrs. Garrison was struck on the face by a seat belt protruding from the door of R. F. Nelson's car. She was rather badly cut around the nose and cheek but otherwise no serious injuries took place.

New Telephone Rates are Necessary

BECAUSE The old rates failed to provide any reserve provision for depreciation or storm damage on an investment by the people of the Province of \$22,956, 148.57.

The old rates barely paid for operating expenses and interest charges on the capital debt.

The interest charges of over a million and a quarter annually are fixed and must be paid.

Operating expenses have been cut \$10.08 per station in the last few years and can be cut no further without seriously impairing the service.

The added revenues will secure adequate protection of the investment and put the telephone utility on a sound financial basis.

The individual subscribers share of the increase is small and he receives dollar for dollar of his rental in good telephone service.

With adequate and fair rates, Alberta's Telephone System is second to none in America. As a subscriber you'll appreciate this.

and Repairer

Will be in Town in the near future.

Any order left at Sisson's Cafe will receive attention.

Mrs. Oium of Oshkosh, Wisconsin, who has been visiting her brother, Frank Smith for the past two weeks left for her home Saturday.

L. J. Adams is considered to be the best snooker player in the village of Champion. He is a strong finisher and according to Jack Doyle L. J. is the one who put the "Flu" in Fluke."

A lone duck came into town on Saturday and settled on the Lake. Barney Hummel discovered it and soon the local hunting experts were on its trail. The duck up to date is still there.

L. W. Bowden has just completed erecting a barn for S. Gregory eleven miles west of Carmangay. It is a wonderful structure and Mr. Boden is to be congratulated on this excellent piece of workmanship.
